

# The 2<sup>nd</sup> Annual Conference of the American Council for Medicinally Active Plants

July 17-20, 2011  
Huntsville, Alabama  
Conference details: <http://www.acmap.org>

## Conference Objectives

- \*Provide a platform for exchange of scientific research; stimulate development of research based solutions for efficient and innovative means of medicinal plant production to final product for consumption.
- \*Foster networking and provide ambiance for researchers, scientists, students, and industry professional to meet, interact and develop relationships.
- \*Discuss issues related to agronomy, phytochemistry, genetics, ethnobotany, biochemistry, biotechnology/molecular biology, postharvest processing/handling and manufacturing techniques.
- \*Explore marketing and legislative issues regarding plants with known medicinal activity against human and animal illnesses.

## Target Audience

Scientists, students, healthcare professionals, health supplement industry professionals and entrepreneurs, extension specialists and agents, governmental and non-governmental professionals, policy makers, forest and farm landowners/growers, agricultural and environmental consultants.

## Events

Keynote plenary session, concurrent sessions, posters, field tours, exhibits, luncheon speaker and evening banquet.

## Registration Fees/Deadlines ([www.acmap.org](http://www.acmap.org))

	Member	Non-Member	Student	Student Non-Member
Early	\$ 200	\$ 325	\$ 100	\$ 150
After 30 May	\$ 250	\$ 350	\$ 125	\$ 175
Onsite	\$ 275	\$ 375	\$ 150	\$ 200
Field trip	\$ 50	\$ 50	\$ 50	\$ 50
*Full Membership/yr	\$ 100			
*Student membership/yr	\$ 50			

*\*Full membership dues include discount for annual meeting and annual subscription to the Journal of Herbs, Spices and Medicinal Plants. Student Membership is for full-time undergraduate, graduate and post-doctoral research associates. Student membership does NOT include a journal subscription.*

## Themes for Presentations

Ethnobotany and Botanical Sourcing; Breeding and Crop Improvement for Medicinal Active Plants (MAPs); Biotechnology of MAPs; Phytochemistry and Bioactivity, Plants used to improve Human and Animal Health; Traditional Schools of Natural Medicine and Herbal Products; Production and Postharvest Systems; Standardization, Quality Control, Intellectual Property Rights and Commercialization

**Abstract Submission:** Visit [www.acmap.org](http://www.acmap.org) for submission guidelines

Abstract submission deadline: **April 30, 2011**
